

My Second Home Pet Resort

Franklin, Tennessee

My Second Home Pet Resort has suites in “Dog City” overlooking the lake of “Central Park.” If you want your pet to have some pampering while you’re out of town, My Second Home is just the place.

But in planning a building for animals, some special considerations come into play. For example, keeping the facility clean and odor-free was a top priority, so ventilation and plumbing required extra attention.

“I know we created some extra stress for Carden. . . They were very responsive. I was really very, very pleased with the overall project management, the site folks and their choice of contractors.” - Owner Dan Starko
