

## **Rooms To Go**

Franklin, Tennessee (Cool Springs)

The aesthetic for Rooms to Go stores is light and airy, an effect partially achieved with an open bar joists-no ceiling design. Rooms to Go also displays their furniture in room settings to help customers choose and coordinate pieces. Providing the proper back-drop for these settings was the job of our skilled carpenters.

Because of heavy phosphate soils, this mid-winter project start gave us some problems, but with extensive experience in the area we were able to anticipate the difficulties and deliver on time.
