

Schwan's Home Services, Inc.

Sales and Operations Depot
Mount Juliet, Tennessee

Schwan's regional sales and operations hub for distribution support, this new building is their center of the action for Nashville and Middle Tennessee. Of primary importance was the freezer distribution space where daily outgoing home deliveries are processed and nightly incoming product deliveries are stocked.

So for this build, we needed to put together a team to handle construction of both an attractive and up-to-date administrative facility - and the state-of-the-art -20 degree freezer component.
