

## **Robert Orr Sysco Distribution Center**

Nashville, Tennessee

Robert Orr Sysco delivers supplies to food service operations of all sizes - from local restaurants to hospitals, schools, etc. For this project, they were wanting additional dry storage space that was economical, flexible and durable.

Utilizing Butler Manufacturing's Landmark 2000 structural system for wide bays and a concrete floor with "trap rock" surface hardener, we were able to provide them with the strong, low maintenance space that will serve them well for years to come.
